

VET2Business - VET-Business Partnerships on Work-based learning and Apprenticeships

VET2Business Project aims to bridge the gap between VET Training and the Business Sector, improving relevance of education to current labour market needs in the Hospitality and Catering field, with an emphasis on SME's.

More than 3.000 indirect beneficiaries, 2.000 stakeholders and 1.000 "Online apprenticeship monitoring and exchange" platform users will benefit from VET2Business Project, making use of the training resources and modernized WBL programs.

Increased skills, knowledge and competitiveness in the field of Hotels and Catering as a result of modernized and demand led VET curricula will be one of the main impacts of VET2Business Project.

Two new Curricula in Hotel and Catering Sector are being developed and introduced, while at the same time effective cooperation structures between VET teachers and in-company trainers are being developed.
